Credit Score

[Learn More about FICO® Scores ▶](#)

Your score is near or slightly above the average of U.S. consumers and most lenders consider this a good score.

What's helping your score?

✓ Low Revolving Credit Usage

You've limited the use of your available revolving credit.

Ratio of your revolving balances to your credit limits
6%

FICO® Scores evaluate the total revolving account balances in relation to the total credit limits on those accounts ②. People who keep their ratio of balances to credit limits low pose less risk to lenders than those with higher ratios.

For FICO High Achievers ②, the average ratio of the revolving account balances to the credit limits is less than 7%.

✓ Long Credit History

You have an established credit history.

Your oldest account was opened
12 Years, 7 Months ago

FICO® Scores measure the age of the oldest account and the average age of all accounts being reported. Generally speaking, having a relatively long credit history and not opening many new accounts is reflective of lower risk.

FICO High Achievers ② opened their oldest account 25 years ago, on average.

What's hurting your score?

⊖ Serious Delinquency

You have a serious delinquency (60 days past due or greater) or derogatory indicator on your credit report.

Number of your accounts that were ever 60 days late or worse or have a derogatory indicator
4 accounts

The presence of a serious delinquency or derogatory indicator ② is a highly correlated predictor of future payment risk. People with previous late payments are more likely to pay late in the future.

As these items age, they will have less impact on the FICO® Score.

Most late payments stay on your report for no more than seven years.

Virtually no FICO High Achievers ② have a 60 days late payment or worse listed on their credit report.

⊖ Loan Balances

The remaining balance on your mortgage or non-mortgage installment loans is too high.

Percentage of principal you have paid down on your open non-mortgage installment loans
0%

FICO® Scores weigh the balances of mortgage and non-mortgage installment loans (such as auto or student loans) against the original loan amounts. In general, when an installment loan ② is first obtained the balance is high. As the loan is paid down, the balance decreases.

As installment loan balances decrease, they have less

[Public Records](#)

[Credit Score](#)

Note, consolidating or moving debt from one account to another will usually not help a FICO® Score since the same total amount is owed and the score may go down due to opening a new account.

What's helping your score?

You have no positive factors impacting your Score.

Credit Score

Bad Payment History

What's hurting your score?

You have one or more accounts showing missed payments or derogatory indicators.

Few Accounts Paid On Time

You have few accounts that are in good standing.

Number of your accounts with a missed payment or derogatory indicator
4 accounts
The presence of missed and late payments or derogatory indicators [®] on a credit report, including the number of late payments, how late they were and how recently they occurred, are correlated with future credit risk. Your FICO[®] Score was lowered due to the number of missed and late payments recently on some of your accounts or have accounts with derogatory indicators [®] reported.

As the number of accounts with delinquency or derogatory indicators decreases, they have less impact on a FICO[®] Score.

About 98% of FICO High Achievers [®] have no missed payments at all. But of those who do, the missed payment happened nearly 4 years ago, on average.

About your FICO® Score 8 or other FICO Scores

Your FICO® Score 8 powered by Experian data is formulated using the information in your credit file at the time it is requested. Many but not all lenders use FICO® Score 8. In addition to the FICO® Score 8, we may offer and provide other base or industry-specific FICO® Scores (such as FICO® Auto Scores and FICO® Bankcard Scores). The other FICO® Scores made available are calculated from versions of the base and industry-specific FICO® Score models.

Base FICO® Scores (including the FICO® Score 8) range from 300 to 850. Industry-specific FICO® Scores range from 250-900. Higher scores represent a greater likelihood that you'll pay back your debts so you are viewed as being a lower credit risk to lenders. A lower FICO® Score indicates to lenders that you may be a higher credit risk. There are many scoring models used in the marketplace. The type of score used, and its associated risk levels, may vary from lender to lender. But regardless of what scoring model is used, they all have one purpose: to summarize your creditworthiness. Keep in mind that your score is just one factor used in the application process. Other factors, such as your annual salary and length of employment, may also be considered by lenders when you apply for a loan.

What this means to you:

Credit scoring can help you understand your overall credit rating and help companies better understand how to serve you. Overall benefits of credit scoring have included faster credit approvals, reduction in human error and bias, consistency, and better terms and rates for American consumers through reduced costs and losses for lenders. Your lender or insurer may use a different FICO® Score than FICO® Score 8 or other base or industry-specific FICO Scores provided by us, or different scoring models to determine how you score.
